1. INTRODUCTION

Since 1990, certain New Mexico companies have joined together to operate a service known as New Mexico One Call, Inc. (NMOC) for the purpose of providing a mechanism whereby construction contractors and other persons can determine the location of underground facilities prior to engaging in blasting or excavating operations. By providing such information, NMOC is intended to help prevent damage to underground facilities resulting from such operations, and thereby to prevent injuries to persons and property and interruptions of utility service. NMOC is also the designated three digit 811+one call center for New Mexico, and subsequently is also known for doing business as New Mexico 811+and as NM811+.

NMOC is structured as a 501-C4 nonprofit corporation, the regular members of which are the participating entities that own, operate or maintain underground facilities. New Mexico Law, Chapter 62, Article 14 NMSA 1978 requires all underground facility owners and certain pipeline owners and operators to belong to the One Call Center and also requires all excavators to notify the One Call Center of their intended excavation activities.

This manual sets forth the general operational procedures for NMOC and its members. The manual is subject to revision from time to time by the board of directors. All board approved changes will be posted on the NMOC web site www.nmonecall.org and will list the latest revisions. Significant changes to content or changes in rates will be communicated to the members in advance, at least 30 days, of any proposed board actions.

2. NMOC'S MAJOR FUNCTIONS

2.1 Locate Requests

To receive notifications from the public, contractors, utilities, and other parties of proposed excavation activity. These parties are required by state law to contact the One Call Center in advance of all planned excavation. The notifications received for these purposes are referred to as locate requests.

2.2 Notify Facility Owners

To transmit, via a communications network, information pertinent to the excavation location and the nature of the excavation to all NMOC members who may have underground facilities at or near the excavation location.

2.3 Clears

To provide a Clear Registration System as required by state law for underground facility owner/operators to document the clear+status of locate requests and for excavators to inquire about the clear status of a locate request.

2.4 Promotion

To promote and market membership in NMOC to all underground facility owner/operators.

2.5 Awareness

To promote awareness of safe excavation practices to the general public.

2.6 Education

To provide education of excavators, facility owner/operators and the general public in how to use the one-call process.

3. OBJECTIVES

3.1 NMOC's objectives are to:

- A. Promote public safety.
- B. Eliminate costly damages.
- C. Reduce lost production time caused by damages.
- D. Promote utility coordination.
- E. Promote compliance with existing regulations, such as:
 - 1. Chapter 62 Article 14 NMSA 1978
 - 2. NMAC Title 18 Transportation and Highways Chapter 60: Pipeline Construction and Maintenance
 - i. Part 2: General Provisions
 - ii. Part 4: Enforcement Procedures
 - iii. Part 5: Excavation Damage Prevention
 - 3. OSHA 1926.651, and
 - 4. CFR Title 49-Part 192.614
- F. Help protect the environment.
- G. Promote use of 811 by excavators.
- H. Promote membership in NMOC.
- I. Provide a cost effective notification system to members.

4. DEFINITIONS

Specific definitions of words as defined in State law are used in these Operating Procedures unless the context clearly implies a different meaning.

5. MEMBERSHIP

5.1 Member Classifications

Participation in NMOC may be in one of the following classifications:

- A. Pipeline . Any member who owns or operates facilities in New Mexico consisting of a Gas Transmission, Liquids pipelines, or products or by-products pipelines, gathering systems, or producers.
- B. Electric . Any member who owns or operates underground electric distribution and transmission utility facilities within New Mexico.
- C. Government . Any member of a political subdivision or authority of government or quasi government agency or group including Villages, Towns, Cities, Schools, Parks, Authorities, or other government owned or operated underground facilities within New Mexico that are for the public use or good.
- D. Communications . Any member who owns or operates underground telephone, fiber, cable television, or other communication signal or alarm facilities within New Mexico.
- E. Water and Wastewater . Any member who owns or operates as a business a water system or wastewater system or is non-profit mutual domestic water or waste-water system, a homeowner association, or other group providing water or waste-water services in New Mexico.
- F. Gas Distribution . Any member who owns or operates a gas distribution system providing gas services to the general public in New Mexico.
- G. Associate . Any individual, group, or business entity, including contractors, suppliers, or designated honorary members; who does not own or operate any underground plant in New Mexico, but desires to promote safe excavation and damage prevention by providing services and support to New Mexico One Call, Inc.
- H. Members may only reside in one classification. When members have more than one underground facility they must choose which classification to belong to, usually the member chooses the classification with the most underground facilities. If a member wishes to be represented in more than one classification, it must elect to have another membership under the other desired classification.

5.2 Membership Agreements

- A. Upon execution of the appropriate membership agreement, all members of New Mexico One Call, Inc. shall be governed by the Bylaws of the Corporation. Membership is considered inactive until all registration and database requirements have been satisfied.

- B. The Membership Agreement states those terms and conditions under which members may be accepted and permitted to participate in NMOC as a member.

5.3 Membership Fees

Each member will be assessed a membership fee, in accordance with the applicable Rate Schedule adopted by the Board of Directors from time to time. Members will be notified at least thirty (30) days prior to any changes in their applicable rates. A copy of the current schedule is attached as Appendix A.

5.4 Membership Types

Each member will be identified by the type of entity it is. The following definitions are used to help identify the entity most appropriate for the member:

- A. Privately Owned. This type is used to identify farm, ranch, or privately owned systems with one or more users/locations, but the service is not for resale or for profit and is used strictly within the ranch or farm or privately owned operations.
- B. Very Small Systems. This type of system is used to identify small owner operators, typically homeowner associations, trailer parks or very small subdivisions which are not for profit and have less than ten miles of total underground distribution and/or less than 250 customers in the aggregate.
- C. Small Owners and Master Meters. This type of system identifies larger facilities owned by developers, including strip centers, apartment complexes, and other master metered utilities, whose complex is served by the utility but owned and operated by the owner. Typically the rent or lease within the complex includes the utility service or it is sub-metered for allocation purposes. Limited to less than 50 miles of total underground facilities and or less than 500 customers in the aggregate.
- D. Incorporated Non-Profit Associations and Groups. Typically includes non-profit Mutual Domestic Water and Wastewater entities in small rural areas, larger homeowner associations operating water and/or sewer services, and other non-profit groups which operate retreats or complexes for specific non-profit groups.
- E. Government. includes villages, towns, cities, departments of federal, state and municipal government agencies, parks, or quasi government agencies, i.e., flood control authorities, etc.
- F. Business Entities & Corporations. For profit businesses who provide utility services, or operate public utility facilities that are privately owned for the public good.
- G. Pipelines, Gathering Systems, & Producers. Gas distribution utilities, liquid and gas pipeline owners and operators, and gathering systems and producers of gas and oil products and by-products.

6. COMMITTEES

6.1 Standing committees

The Board of Directors establishes those standing committees it deems to be necessary for the efficient operation and control of NMOC.

6.2 Additional committees

The President of the Board may establish additional committees from time to time as necessary.

6.3 Chairperson

Unless otherwise provided, each committee shall elect a chairperson to oversee committee operations and ensure that it performs those functions as are established by the Board of Directors. This chairperson is responsible for:

- A. Conducting regularly scheduled meetings;
- B. Approval and distribution of minutes of the committee meetings;
- C. The selection, or election, of a Committee Secretary;
- D. All written correspondence from the Committee to promote the effectiveness of NMOC and to ensure improved results; and
- E. Instituting all actions, as directed by the Board of Directors, not covered in this section.

7. CENTER OPERATIONS

7.1 Executive Director

The Executive Director is responsible for overseeing the routine operation and maintenance of NMOC.

7.2 Board of Directors

The Board of Directors will meet periodically as determined by the board and, when necessary, will review and revise the operations of NMOC to ensure it continues to provide the most efficient service to all of its members.

7.3 Geographical Boundary

NMOC will accept notifications of excavation activities only when they are within the geographical boundaries of the State of New Mexico.

7.4 Employees

NMOC shall provide the personnel necessary to carry out its business and shall employ the appropriate management and staff to conduct the operations of NMOC in

an effective manner to ensure the integrity of the service offered to all of the NMOC members.

7.5 Duties and Responsibilities

The duties and responsibilities of the personnel of NMOC are designated and outlined in the approved job descriptions for those positions operating within NMOC. The duties and responsibilities of these positions are subject to change pending any changes in the temporary or permanent operational needs of NMOC.

7.6 Hours

NMOC Operations Center is open to receive notifications during the following business hours - 7:00 A.M. to 5:00 P.M. (Mountain Time Zone) Monday through Friday. The Center will also accept facsimiles and web tickets 24 hours per day, 7 days a week, but will process such requests as defined in state regulations.

7.7 Holidays

NMOC will observe the following state holidays: New Year's Day, Martin Luther King's Birthday (observed), Memorial Day (observed), Independence Day, Labor Day, Columbus Day, Thanksgiving Day, US Presidents Day (usually observed by the State on the Friday following Thanksgiving Day), and Christmas Day. If any of these holidays occur on a Saturday, it will normally be observed on the preceding Friday and if any of these holidays occur on a Sunday, it will normally be observed on the following Monday.

7.8 24X7 Afterhours Emergency Service

NMOC will process emergency calls after normal business hours and on holidays and weekends. The service will be **limited to only emergency calls**. All other locate requests will continue to be submitted as they currently are; by phone during normal business hours, or faxed or web entered anytime. When a request is made to the one call center, the one call operator will send out an emergency locate ticket to the member's terminal. This ticket will document the emergency notification. The member companies are required to respond to the emergency and either mark the lines or clear the ticket. Members who have 24 hour personnel and receive the tickets in the same location where these personnel are working will be able to immediately respond. Members who do not have personnel working afterhours where the ticket is received may make their own arrangements for proper response to emergencies or may elect to use NMOC's 24x7 Afterhours Emergency Phone Up Service (AEP) by completing a service agreement form (Appendix %C+). NMOC will not provide the AEP service during normal business hours, members will still be notified of an emergency via an emergency ticket sent to the terminal.

Those members employing the AEP service, in addition to the ticket sent to the terminal, will also be notified by telephone and will be advised of the tickets details. The one call operator will make up to four phone attempts to reach the designated afterhours emergency contact in a two hour period. If the operator is not able to reach the contact using the phone number provided, then the one call operator will document the record as %no answer+. Failure of a facility owner to answer the emergency phone call or to respond to an emergency in progress could be

considered a violation and subject the facility owner to potential penalties and liabilities.

It is NMOC's policy that every member must designate and return the 24x7 Afterhours Emergency Phone Up Service Agreement form (Appendix D) indicating the member's desire to participate in or to decline the 24x7 afterhours emergency phone up service.

Excavators using the afterhours emergency service are deemed to have made a reasonable effort to contact the facility owners when they call NMOC for after hour emergencies.

8. DATABASE PROCEDURES

8.1 Notification Area

Each member of NMOC shall be responsible for indicating every area of the State where they have underground facilities, or otherwise wish to receive notifications from NMOC. Each member company is responsible for notifying NMOC in writing of changes in its coverage area within thirty (30) days of the installation of new facilities affecting their database. Each member is responsible for verifying its database from time to time to insure its accuracy.

8.2 Reporting Mileages

Since reporting mileages is based on the honor system, NMOC reserves the right to request members certify their reported underground facility mileage from time to time. Certification requests will be made via mail and will show the estimated mileages based on member layer map coverage, and the reported mileage. The member will have 30 days to provide the certified mileage to NMOC. NMOC will then use the certified mileages for billing purposes. NMOC will use the estimated mileages for billing purposes if the member fails to respond to the certification request in 30 days and such billings will be on a non-refundable basis. Furthermore, NMOC reserves the right to back charge any member for reasonable under-reported mileages plus a late fee of 1½ percent per month for the period the mileages were under reported. See Appendix B Determining Your Reportable Mileage.

8.3 New Members

New members will be required to provide the following:

- (A) Company Representative and contact information.
- (B) Terminal information and type, terminal contact person and information for each terminal.
- (C) After hour emergency contact information by terminal.
- (D) Billing Contact and information.
- (E) Total Miles of underground facilities in New Mexico.

- (F) Total number of residential and/or commercial customers served underground in New Mexico.
- (G) Their underground facilities map data or TRSQ grid database of their service area.
- (H) A signed 24x7 Afterhours Emergency Phone Up Service Agreement (Appendix ~~9D+~~) indicating the members desire to participate in or decline the service, and the members afterhours emergency contact information.

A member is not considered active until their database has been provided and they have been made active in the computer system. Activation and billing begin once a new member has received a ~~test~~+notification and confirms receipt of the ticket.

NMOC will begin sending notifications out immediately once the member data is initially input in order to avoid any delays in protecting the member's underground facilities. NMOC will upon completion of the initial input data provide a confirmation of the database input information to the designated company's terminal contact. The member is responsible for immediately reviewing and ensuring the database confirmation accurately represents what was provided to NMOC. The member is responsible for the accuracy of the initial database information until such time as the member provides NMOC with confirmation the database has been input correctly. Any damages or liabilities resulting from errors or omissions in the database are the sole responsibility of the member until the member has provided NMOC confirmation the database is correct.

8.4 Database Updates

Once the initial member database is input, NMOC will make changes to it on an as requested basis by the member. NMOC will begin sending notifications out immediately once the member data change is input in order to avoid any delays in protecting the member's underground facilities. The member is responsible for the accuracy of the changed database information until such time as the member provides NMOC with confirmation the data base change has been input correctly. Any damages or liabilities resulting from errors or omissions in the database are the sole responsibility of the member until the member has provided NMOC confirmation the database change is correct.

9. COMMUNICATIONS

9.1 Locate Requests

NMOC will provide adequate incoming telephone lines as the volume of calls dictate. NMOC also provides ~~facsimile~~+and ~~web~~-based+accessibility for locate requests twenty-four hours per day, seven days per week. For the purposes of determining the legal excavation start time, ~~facsimile~~+and ~~web~~-based+entries will be processed within three hours of the next business day's opening at 7:00am.

9.2 Management Staff

NMOC's management staff shall each have separate telephone lines available to conduct the business of NMOC.

9.3 Voice Recordings

For liability purposes, a voice record shall be maintained of the incoming call request to locate underground facilities. These records shall be kept in retention for a period of five (5) years. Should a notification become involved in litigation, a recording of that notification shall, upon request, be made available to the NMOC member for legal purposes. There may be a nominal charge for any copies of tickets, written records or voice records retrieved from archived information.

9.4 Member Notification

NMOC shall maintain sufficient quantities of outbound telephone lines and internet bandwidth to ensure the expedient and efficient transmittal of notifications requests or messages to all NMOC members.

Each NMOC member is responsible for maintaining a communications receiving device or arrangement whereby NMOC can transmit notifications in an expedient and efficient manner.

Every NMOC member should use e-mail, if available, as its primary means of receiving notifications. This will help reduce per ticket costs to all members.

All member activity concerning any additions, relocations or disconnections of terminal receiving units for NMOC locate requests must be coordinated through NMOC prior to such action.

Each NMOC member is individually responsible for maintaining adequate supplies and providing routine maintenance necessary to operate their terminal receiving equipment.

Each member terminal receiving location should insure that the power to their machines is always on to receive notifications from NMOC.

Every NMOC member must have an alternative subscription medium to provide backup communications to each terminal available for receiving notifications.

Each member shall furnish the NMOC center with the appropriate telephone numbers to contact member personnel for verification of location requests and for emergency or after-hours notifications.

NMOC will promptly contact the designated member's contact personnel at each terminal receiving location if it is determined that receiving equipment is not functioning properly. NMOC will send test messages if needed to any terminal receiving location upon request.

Each member who receives notifications is responsible for immediately notifying NMOC of any errors or failures of their notification receiving equipment.

9.5 Good Night Reports

Each NMOC member shall be furnished a good night report each morning. The member will receive a good night report for each subscription for each terminal. Each good night report lists all the notifications transmitted via the subscription to the member the previous day for that terminal. The member shall review the report and determine if it is missing any notification transmissions. This is done by reviewing the sequence number of the notifications transmitted and determining if any sequenced numbers are missing. If the member is missing transmitted notifications or the good night report, the member shall immediately notify NMOC and have the missing information retransmitted.

9.5.1 Option Limiting Good Night Reports

Members who receive more good night reports than notifications may request an option to limit the good night reports being sent to only when a notification has been transmitted for that day. To elect this option the member must execute a written agreement (Appendix C) which stipulates the member agrees to be solely responsible for ensuring their receiving equipment is functioning and indemnifies NMOC from any liability that could be incurred as a result of the member failing to receive a notification transmitted by NMOC.

9.6 Clears

NMOC shall maintain a Clear Registration System, as provided by State law, whereby all NMOC members shall clear every locate notification received which has not been properly cleared and marked at the dig site. NMOC will bill the member a nominal fee for each notification cleared on the Clear Registration System per the rate schedule shown in Appendix A.

10. UNDERGROUND LOCATE REQUESTS

10.1 The Locate Ticket

A locate request form (ticket), recording the information furnished by the caller, shall be prepared for each type of underground locate request. The date and time received will automatically be assigned by the computer system or by an operator while the information from the caller is being entered into the notification system.

PRC rules and regulations requires that every one making a locate request must provide certain information so as to permit the locator to specifically identify the proposed area of excavation and work area requirements. If NMOC determines the minimum information is not provided as required by regulations, NMOC will suspend the request and advise the requestor to call back before the close of business that day with the required information or the request will be purged and the caller will have to remake the request when the information is available.

PRC rules and regulations provides for the locate request to include an area no larger than can be reasonably worked by the excavator in a ten day period. If the work area will take longer than ten working days to complete, NMOC will suggest options for the type of locate request to use in meeting the allowable size of the physical area of a single locate request.

Callers will be notified that a locate request is only good for ten working days beginning two working days after the request is processed in accordance with state law. The caller will be given the valid excavation dates by the operator. PRC Rules and Regulations prohibit relocates for a standard Ten (10) day ticket unless circumstances exist which were beyond the excavator's control. All requests for %relocates+ should be requested two working days before the expiration date of the original request and must show the reason for the relocate.

10.2 Ticket Number

NMOC shall sequentially number the locate request forms and the information shall be maintained by NMOC to insure quick reference. The caller shall be given the location request (ticket) number for their future reference, or in case additional information is required. The caller, upon their request, may also receive a confirmation copy of the ticket by fax or email. After receipt and preparation of the request, the notification information will be automatically stored electronically. NMOC shall retain this information for a period of five (5) years.

10.3 Members Notified

NMOC will provide members excavation notifications (tickets) based on the subscriptions they have requested. A subscription is the medium by which a notification is transmitted or received by the member. Subscriptions may be by facsimile, email, phone ups, or by File Transfer Protocols (FTP). NMOC's computer system automatically identifies those members whose database indicates their need or desire for excavation notifications in the dig area. The NMOC operators will inform the caller of NMOC members that are being notified.

10.4 Member Response

The receiving location(s) of each member is responsible for promptly responding to all notifications that they receive. Each member that is notified of planned excavation activities shall mark as provided by law those facilities that may be in the proposed area of excavation and shall respond via the %Clear Registration System+ whether facilities are %clear+if they have not been marked as provided by law.

The NMOC member agrees to respond to the following requests within the time periods shown in the table for each type of header code request:

Header Code	Member's Required Response Time
Warning	IMMEDIATE RESPONSE REQUIRED Within two (2) HOURS
Damage Report	
Emergency	
Priority Locate	AS SHOWN ON TICKET (Between 2 hours and 40 hours)
Standard Locate	Within two (2) working days
Bid Locate	
Design Locate	
Update	
Conference Bid Design Wide Area	Arrange meeting with excavator within two (2) working days
Road Maintenance	Clear if no conflicts or mark site within two (2) working days
Correction	Original ticket start time does not change.

PRC rules and regulations require that facility owners report, in writing, to the Pipeline Safety Bureau any third party damages to the member's underground facilities.

11. BILLING AND EXPENSE RECORDS

11.1 Member Billing

NMOC will bill its members, in accordance with the rate schedule established from time to time by the Board of Directors, as follows:

- (A) Determine, prepare and mail an invoice for each member in accordance with the NMOC rate schedule.
- (B) Prepare and mail a current statement of account to the member each quarter. The statement shall indicate the current quarter's billing amount by member name and previous quarters credit amounts received.
- (C) Payments are due and payable within 30 days of receipt of invoice. Checks should be made payable to New Mexico One Call, Inc. NMOC will also take credit card payments.
- (D) The member's account will be credited when payment is received and the payment will be deposited in the established NMOC bank account.

- (E) NMOC invoices members 30 days in advance. Payments not received by NMOC within 30 days will be considered delinquent and subject to the following late payment fees:

0 - 30 days	Current
31 - 60 days	Payment is overdue
61 - 90 days	\$9 late fee or 1½% of unpaid balance per month, whichever is greater

- (F) Payments not received by NMOC within 215 days will result in membership suspension and the company will be reported to the Public Regulation Commission, Pipeline Safety Bureau as a member in %Poor Standing+and excavation notices will be suspended. Late payment fees will continue to be charged to the member even if service is suspended and will accumulate until account is current. In order to reinstate membership to %Good Standing+, NMOC will require the member to pay the account in full plus a security deposit equal to three months of dues. Security deposits will be refunded to the member when the member has been a member in good standing for 24 consecutive months and the deposit was made within the last 36 months. Deposits held over 36 months and not refunded within the 36 months will be forfeited. Security Deposits are not interest bearing and when appropriate, are refunded to the member at the same amount as received.

Any member who fails to make arrangements or otherwise correct the cause of the suspension within 90 calendar days may be removed for reasonable cause by a majority vote of the Board of Directors. Removal of any member terminates all membership and privileges accompanying said membership immediately upon removal. In the event of such removal, the member shall none the less remain obligated for all assessments, fees, dues, and other charges payable for any preceding years and the year of removal. A copy of the removal notice shall be sent to the Public Regulation Commission Pipeline Safety Bureau.

- (G) Security deposits will be refunded to the member when the member has been a member in good standing for 24 consecutive months and the deposit was made within the last 36 months. Deposits held over 36 months and not refunded within the 36 months will be forfeited. Security deposits are non refundable in the event of suspension or removal from membership. Security Deposits are not interest bearing and, when appropriate, are refunded to the member at the same amount as received.

11.2 Bills and Billing disputes

Bills are based upon the factors included in the approved rate schedule. The quantity of tickets is based on the total notifications sent to the member by NMOC which is determined by the number of subscriptions (fax, email, FTP, or phone ups) the member has requested for each terminal. The goodnight report shows all notifications (tickets) members will be billed for including those with multiple subscriptions. Each ticket sent via a subscription will be billed except for goodnight reports, free forms, cancelations, and resends. It is the member's responsibility to provide a primary and backup subscription method for each terminal. Multiple subscriptions for the same ticket number are permitted, but will be billed for.

Any member wishing to dispute their bill should immediately contact NMOC and provide the nature of the dispute. No actions regarding a billing dispute will be permitted for a period going back more than a six month period.

11.3 NMOC Accounting

For purposes of accounting, NMOC books are kept monthly and shall be kept in accordance with generally accepted accounting practices.

- (A) NMOC will maintain records of all expenses associated with its operations.
- (B) NMOC will compile a monthly summary of operating costs in detail.

Deposit slips and monthly bank statements shall be maintained on file for seven (7) years.

12. PUBLIC RELATIONS, EDUCATION AND ADVERTISING

The Executive Director shall establish guidelines for any advertising and publication of information on NMOC or usage of its logo by NMOC members. The Executive Director will be responsible for the ordering and the distribution of NMOC advertising and specialty items.

NMOC will set up and maintain an on-line web access store for the ordering and purchasing of NMOC advertising materials and items for promotional use by the members.

NMOC will maintain a record of all public appearances and presentations made involving any representative of NMOC. NMOC presentations for interested groups may be arranged through the Executive Director.

All advertising and promotional material will specify New Mexico One Call, Inc. and/or logo, and/or the 811 logo, and/or %Dig Safely+and the appropriate telephone numbers.

APPENDIX A – RATE SCHEDULE

MEMBERSHIP DUES AND FEES SCHEDULE

The following is a description of the dues and fees and algorithms approved by the Board of Directors of New Mexico One Call, Inc.

REGULAR MEMBERSHIP	TYPE	RATE	BASIC	MILES OF PLANT	PER TICKET*
	Privately Owned & Very Small Facility	R1	\$37	\$0	\$1.06
	Small owners & Master meters	R5	\$86	\$0	\$1.16
	Incorporated Non-Profit Associations and Groups	R50	\$86	\$11.40 /mi/yr	\$0
	Government	R120	\$156	\$5.40/mi/yr	\$1.16
	Business Entities and Corporations	R132	\$166	\$5.65 /mi/yr	\$1.17
	Pipelines, Gathering Systems & Producers	R150	\$186	\$6.00/mi/yr	\$1.18
	Very Large Rural Facility	R200	\$2000	\$0	\$1.13

ASSOCIATE MEMBERSHIP	TYPE	Yearly Fee	Includes	Additional Persons
	Individuals	\$150	n/a	n/a
	Associations Groups	\$350	Three persons	\$125 per added person/year
	Contractor And Excavator Companies	\$225	One person	\$125 per added person/year
	Vendors	\$300	One person	\$125 per added person/year

BASIC DUES

ANNUAL BASIC DUES = \$Basic fee + Miles of plant fee * MILES OF PLANT + ticket fee * TICKETS

CLEARs

\$0.15 per clear processed through NMOC.

TERMS

Terms of payment are NET 30 Days.

Late fees will be charged according to our policy as stated in the Members Manual. A copy of the manual is available on our web site at www.nmonecall.org or by calling 505-260-1165.

New Applicants

Do not send payment with your membership application. NMOC will bill quarterly or yearly.

* PER TICKET+means every notification sent by NMOC (excluding freeforms, cancellations, corrections, resends & goodnights) including multiple subscriptions (i.e. email, phone, FTP, or fax) for the same ticket number.

NOTE: The NMOC Board approved a \$0.03 per ticket increase per quarter contingent on the coverage debt ratio being at or below 1.27 to 1.00. The increment is limited to a maximum of three quarters. For more information please call 505-254-7315.

APPENDIX B – DETERMINING YOUR REPORTABLE MILEAGE

DETERMINING YOUR REPORTABLE MILEAGE

Calculating your mileage and reporting it is based upon the honor system. Members are expected to report the applicable mileage and update the figure whenever it has changed. NMOC will check map layer information with your reported mileage and if there is a significant discrepancy will ask the member company to certify their reported mileage. NMOC reserves the right to use estimated mileages whenever a member company does not provide or respond to a request for certified mileage. The mileage is one component used in calculating your bill and to be fair to all other members should be accurate as possible.

HOW TO CALCULATE YOUR MILEAGE

NMOC uses mileage for only distribution and transmission facilities. Lines removed from service (abandoned) are excluded. Service lines are defined as the last connecting link between the utility customer and the utility's distribution system. Abandoned lines are lines that have been retired from service and left in the ground. Distribution and transmission facilities are those facilities you wish to have protected by the one call system which are underground. Other underground systems that should be included in your reportable mileage are listed below:

- Electric Lines
- Street Light Circuits
- Fiber Lines
- Telecommunications Cables
- Cable TV Lines
- Gas
- Pipelines
- Water
- Sanitary Sewer and Waste Water Systems
- Storm Sewers
- Traffic Control Circuits
- Fire Protection Systems
- Security, Camera, and Alarm Systems
- SCADA Systems

To calculate your mileage determine the total miles of each facility and then add them together for the total mileage reportable to NMOC.

UPDATING REPORTABLE MILEAGE

As you add or delete portions to your systems be sure to notify NMOC so your map layer can be updated so you receive the proper tickets and the mileage record can be updated. This can be done periodically or on an as needed basis if the changes are significant. NMOC will remind members yearly to update their mileage information.
